1 SIMPLICITY: no PC required

By using the internal software of the machine, the DP3000/4000 is very simple to program. This user friendly and flexible software allows you to easily achieve the desired marking for all your parts without the need for a PC.

2 READY TO USE

The DP3000/4000 motorized rotary marking device is delivered as a complete package. Thanks to its set up CD-Rom, it is quick and easy to install.

3 OPTIMIZED PRODUCTIVITY

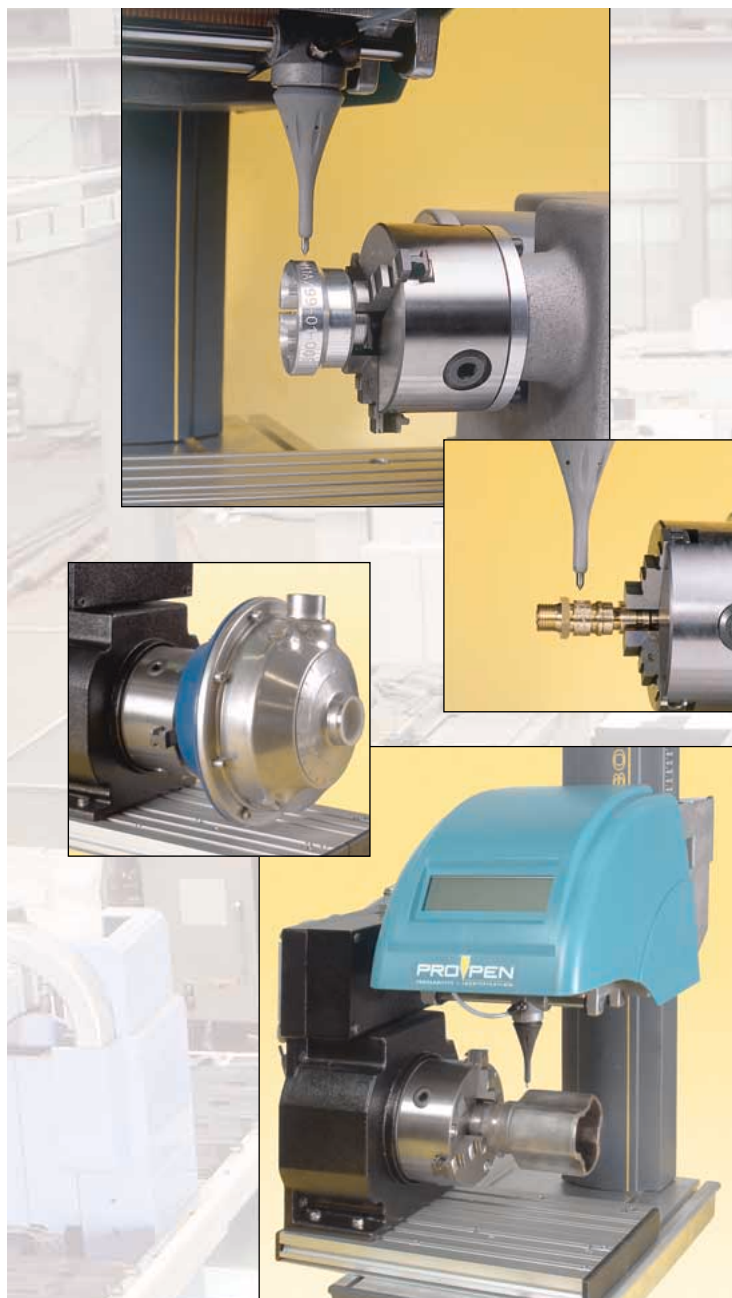

The DP3000/4000 has a variable speed of rotation which can be adapted to the size of the part you wish to mark. In this way, whatever the part, you can always ensure that the marking best suits your production requirements.

4 WIDE VARIETY OF PARTS

Thanks to its hollow chuck and its internal and external clamping ability, the DP3000/4000 allows an extensive range of parts to be marked.

5 NUMEROUS POSSIBILITIES

The DP3000/4000 is very flexible. The parts can be marked either around the axis or along the axis and for this reason it is easily adaptable to your marking requirements.

TECHNICAL INFORMATION

	DP3000	DP4000
Dimensions	L=8.6", W=7.2", H=6"	L=10.1", W=4.25", H=12.3"
Weight	11lbs (without cord)	30.8lbs (without cord)
Maximum inertia	17lbs/sq inch	1159lbs/sq inch
Maximum weight	8.8lbs (without part support)	66lbs (without part support)
Rotation Speed	30tn/min (inertia 0.68lbs/sq inch)	14tn/min (inertia 17lbs/sq inch)
	5tn/min (inertia 17lbs/sq inch)	0.6tn/min (inertia 1159lbs/sq inch)
Exterior clamping	from .12-3"	from .12-4.9"
Interior clamping	from .9-3.8"	from 1.2-6"
